If required the Headmistress on the incident may be asked to clean their Toilet of own house organized at a public meeting rather than paying Rs.25,000 as penalty to the affected children.

It is hypothesized that the Philosophy of toilet system might be invented by Indian. Case study shows that toilet were in usage in **Indus valley civilization** who used flush toilet attached to sophisticated sewage system. The public health act 1875 also provide stringent guidelines about toilet system. Presently the Government of India is also promoting effective measures for providing toilet system in rural area as well as public traffic area such as museum, exhibition etc.

It is hypothesized that the philosophy of “**TOILET SHAPE**” whether “**INDIAN TYPE**” (or) “**WESTERN TYPE**” might be derived from the philosophy of shape of “**RAMANUJAM HEART**” (**Creator Heart**). The philosophy of Creator Heart shall be considered as having “**SINGLE CHAMBER HEART**”. The Transformed Heart shall be considered undergone evaluation into **additional chambers** in three nuclear age for sustainability and betterment of Human System. The etymology of word **TOILET** might be derived from the proto Indo Europe root word **THAYAGAM**.

5.0 Conclusion:

Based on this scientific research the following recommendations are made to **UNO** for making international standards for **Cleaning Toilet** in future for strengthening of **Human Life System**. Further it is recommended that **18th JUNE** shall be considered as the “**INTERNATIONAL DAY OF TOILET CLEANING**”.

- i) Toilet shall be cleaned everyday
